

9: Motion concerning the Naming of Buildings and Streets:

1) The University President as the appointing authority for the Advisory Committee on Naming Buildings and Streets approve the following statement:

Generally, nominations may be submitted at any time and the committee will meet (a quorum being present) and act on the nominations in a timely fashion. However, nominations for current or former employees of the university will [normally] not be reviewed by the committee until at least five years have elapsed since the termination of their university employment (whether by death, retirement, or resignation) in order to ensure their sustained recognition and thus, the strength of the nominations.
