

Rationale for Removing Chapter 11 from the Faculty Handbook

When the ISU Faculty Handbook was distributed in print form, *Chapter 11 – Revisions*, was envisioned as place to document the changes that were made in the handbook since the last publication. Electronic publication of the Handbook on the now established twice a year schedule has made Chapter 11 obsolete and no longer useful. This chapter has not been used or modified since August, 2002.

Thus, we are recommending removal of Chapter 11 from the ISU Faculty Handbook.
